SUMMARY

Currently pursuing a degree in Information Technology Engineering at A.D. Patel Institute of Technology. Passionate about Python development, I have hands-on experience with backend frameworks like FastAPI, as well as database management with PostgreSQL and SQLAlchemy. Eager to expand my skills in software development and contribute to innovative solutions in the tech industry.

EXPERIENCE

ReactJs Trainee
AmCoder IT Solution Pvt Ltd.   May 2024 – June 2024, Ahmedabad
- During my internship, I developed a React application, gaining hands-on experience in UI design, implementing Redux for state management, and integrating APIs to enhance functionality and user experience.

Python Devloper
Inexture Solution   September 2024 – March 2025, Ahmedabad
- During my internship, I gained hands-on experience in front-end development using HTML, CSS, JavaScript, along with frameworks like Bootstrap and Tailwind CSS to create responsive and visually appealing user interfaces.
- During my internship, I gained hands-on experience in backend development using FastAPI, along with database management using PostgreSQL and SQLAlchemy. I also worked with Pydantic for data validation and utilized Postman for API testing.

PROJECT

Daily Service Management System
- Developed a system to streamline the tracking and distribution of essential items like milk and newspapers, ensuring seamless operations for both customers and distributors.

School Management System
- Built a School Management System using Python and PostgreSQL to manage school activities efficiently. The system supports admin, teacher, student, and parent roles with features like attendance tracking, exam timetable management, and salary management.

Blog Management System
- Developed a Blog Management System using FastAPI, implementing robust user authentication, login/logout functionality, and CRUD operations for users and blog posts. Integrated features like commenting and replying to blogs, enhancing user interaction.

Swiftura
- Built the backend for Swiftura, an on-demand service platform, using Python and FastAPI. Designed and developed APIs for user authentication, service booking, and management, ensuring smooth interactions between clients and service providers.

SKILLS

HTML, CSS, JavaScript, C, C++, Python, FastAPI, Pandas, MySQL, PostgreSQL
Problem-solving , Teamwork, Critical Thinking

EDUCATION

Information Technology
A. D. Patel Institude of Technology – Bechelor of Enginnering · Anand · 2025 · 8.14 CGPA

HSC
Divine Public School · Navsari · 2021 · 84.14 %

SSC
Divine Public School · Navsari · 2019 · 83.38 %
